# KMA

Kazakhstan  
Maritime  
Academy

**The Kazakhstan Maritime Academy is the unique institution in Kazakhstan that meets all the criteria of the International Maritime Organization's International STCW 2010 Convention**

## History

- ❖ Kazakhstan Maritime Academy (KMA) was established in 2012 by JSC "Kazakh-British Technical University" in cooperation with the STC Group, Netherlands
- ❖ Every year KMA intakes 50 cadets Sponsored By Chevron
- ❖ Every year our cadets are sent to the Caspian Sea and oceans for apprenticeship
- ❖ KMA's teaching personnel is staffed by highly educated professionals with vast experience in the maritime industry
- ❖ Experienced Dutch lecturers from the largest maritime university in the Netherlands, the STC-Group from Rotterdam, conduct training in marine disciplines and share their rich experiences with our students.
- ❖ Kazakhstan Maritime Academy (KMA) at KBTU is the first and the only Kazakhstani higher educational institution that fosters internationally recognized seafarers.
- ❖ The study language is English for the whole duration of the program.

UNIVERSITY**

# Educational Programs of KMA

## Undergraduate degree

- Marine engineering and technology
- Bachelor of Nautical Science and Technology

## Kazakh Certificate of Competency

- Deck
- Engine

## Masters' degree

- Transport Engineering and Planning
- Offshore engineering and shipping operations

## Maritime short courses

- Container Shipping
- Introduction to the maritime industry

## Current achievements

- ❖ In March, 2017 KMA / KBTU successfully passed international specialized accreditation on the specialty "Marine Technique and Technology" in the Non-governmental Non-profit Institution «**Independent Kazakh Agency for Quality Assurance in Education (IQAA)**
- ❖ In 2016 - 2021 successfully accredited by the **Ministry of Transport and Communications of the Sultanate of Oman**
- ❖ **Kongsberg Maritime Simulators** are accredited by the international audit company **DNV GL**
- ❖ In 2017 KMA was accredited by the international audit company **RMRS**

KONGSBERG

# Current achievements

IMO whitelist

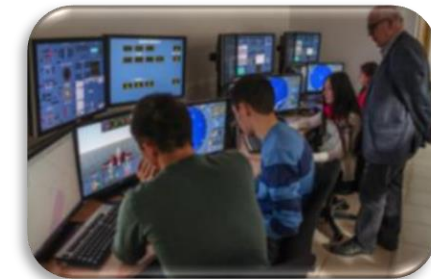

recognition by the maritime administration of Panama

recognition by the maritime administration of the Marsh Islands

# THE TRAINING PROCESS

Cadets, studying **Nautical Sciences**, are trained with equipment simulating the actual situation on the bridge of the vessel (270 degrees). An integrated monitoring system and the ability to simulate any vessel in any port of the world are key characteristics of such training.

- The cadets studying **Marine Engineering**, are trained with simulators of the engine room. This training reduces the number of accidents, improves efficiency and gives mechanics the necessary experience and confidence.

• In addition to training on simulators, professional training is conducted in various laboratories:

- **Mechanical and welding workshop**
- **Laboratory of electrical control systems**
- **Electrical circuit laboratory**
- **Engine room workshop**
- **Chart room**

# OUR PARTNERS:

KMA is working in tight cooperation with the maritime industry

We have hosted more than 40 professional training for oil and maritime companies operating in the Caspian Sea

More than 500 Seafarers attended these training
